01 — WELCOME

Opportunity should not be reserved for the already-connected.

The MHOMHO Commercial Envoy Programme is an independent commercial network designed to expand MHOMHO's reach by bringing together ambitious individuals who can identify business opportunities, establish commercial relationships and introduce businesses to our platform.

WHAT WE BELIEVE

Access to commercial opportunities should not be restricted to people who already have money, connections or impressive qualifications.

The programme gives approved individuals an opportunity to represent MHOMHO within an authorised scope, develop professional skills, build business portfolios and earn recurring commissions from the commercial relationships they establish.

As a Commercial Envoy, you are responsible for introducing businesses to MHOMHO and developing relationships that generate genuine commercial value.

MHOMHO provides the platform, campaign infrastructure and operational support.

02 — WHAT IS MHOMHO?

A performance-based creator distribution network.

We connect businesses with creators who distribute brand campaigns across social media platforms. Businesses use MHOMHO to distribute marketing campaigns, generate visibility, reach audiences and obtain insights into campaign performance.

Our model is designed to make creator-powered marketing more accessible, measurable and scalable. MHOMHO Commercial Envoys help introduce businesses to this network.

MHOMHO MANAGES

Campaign infrastructure and delivery.

ENVOYS CONCENTRATE ON

Business acquisition, relationship development and market expansion.

03 — WHAT IS A COMMERCIAL ENVOY?

Independent. Authorised. Accountable.

An MHOMHO Commercial Envoy is an independently operating individual authorised by MHOMHO to introduce businesses, develop commercial relationships and promote MHOMHO within the scope of their authorisation.

Commercial Envoys earn a percentage of eligible revenue generated by businesses successfully introduced and attributed to them.

AN INDEPENDENT COMMERCIAL RELATIONSHIP

Each Envoy operates independently while complying with the standards and conditions of the MHOMHO Commercial Envoy Programme.

An Envoy is

- ✓ Independently operating
- ✓ Authorised by MHOMHO within a defined scope
- ✓ Introduces businesses and develops commercial relationships
- ✓ Paid a percentage of eligible revenue from businesses attributed to them

An Envoy is not

- ✗ Not automatically an employee
- ✗ Not a shareholder or director
- ✗ Not a franchisee
- ✗ Not a legal agent of MHOMHO

04 — THE MHOMHO COMMERCIAL ENVOY LICENCE

What the licence allows and what it doesn't.

MHOMHO grants each approved Envoy a **limited, non-exclusive, non-transferable and revocable** contractual authorisation to use approved MHOMHO branding and identify themselves as an authorised MHOMHO Commercial Envoy.

This authorisation permits Envoys to

01 Introduce businesses to MHOMHO.

02 Promote MHOMHO's services.

03 Use approved logos, brand assets and marketing materials.

04 Identify themselves publicly as authorised MHOMHO Commercial Envoys.

05 Operate approved MHOMHO-branded social media pages.

06 Use their assigned MHOMHO email address.

07 Participate in authorised MHOMHO commercial activities.

The licence does not transfer ownership of the MHOMHO brand, trademarks, intellectual property, technology or business.

04 — THE MHOMHO COMMERCIAL ENVOY LICENCE

What Envoys cannot do.

Unless separately authorised in writing, Envoys cannot

- Sign contracts on behalf of MHOMHO.
- Change official prices or commercial terms.
- Make guarantees about campaign results.
- Collect customer payments into personal accounts.
- Issue official invoices or receipts on behalf of MHOMHO.
- Appoint other people as authorised Envoys.
- Represent themselves as MHOMHO employees, directors or owners.
- Use MHOMHO branding for unrelated or unauthorised activities.

Not a government licence. The Commercial Envoy Licence is a private contractual brand-use and commercial authorisation. It is not a government-issued business licence, franchise licence or professional qualification.

05 — HOW YOU EARN

20% recurring commission.

The programme pays Envoys **20% of MHOMHO's eligible revenue** actually collected from businesses attributed to them. Commission is calculated from MHOMHO's eligible share, not from the entire campaign budget. Creator allocations and other agreed exclusions are deducted before calculating eligible revenue.

Example: a $300 campaign

Business campaign payment **$300**

MHOMHO gross share **$100**

The Envoy receives $20 from this campaign. If the same business runs another eligible $300 campaign, the Envoy can earn another $20. If the business continues running campaigns, the Envoy can continue earning commission from its eligible revenue.

Example: a $500 campaign

Business campaign payment	**$500**
Creator allocation	**$333.33**
MHOMHO gross share	**$166.67**
Envoy's 20% commission	**$33.33**
MHOMHO remaining share	**$133.34**

What does recurring commission mean?

Imagine an Envoy introduces ten businesses, each running one $500 campaign every month.

10 ACTIVE BUSINESSES

$333.30

per month

10×$33.33

50 ACTIVE BUSINESSES

$1,666.50

per month

50×$33.33

If the Envoy eventually builds a portfolio of 50 similar active businesses, this is the estimated monthly commission.

These are illustrations, not guaranteed earnings. Actual income depends on campaign activity, payments received, campaign values, applicable revenue allocations and business retention.

06 — COMMISSION CONDITIONS

The rules behind every payment.

01	Commission is calculated on eligible revenue actually received by MHOMHO.
02	Unpaid invoices do not generate commission.
03	Creator allocations and creator payments do not generate Envoy commission.
04	Refunds, chargebacks, reversals, taxes and agreed pass-through or third-party costs are excluded from eligible revenue.
05	Commission is calculated using the applicable campaign revenue allocation.
06	Envoys receive commission statements showing their eligible earnings.
07	Commission payments are processed according to the published payment schedule.
08	The minimum payout threshold is $25. Smaller balances roll forward until the threshold is reached.
09	Commission attribution continues for the life of the attributed business relationship, provided the Envoy agreement remains in good standing and the business continues generating eligible revenue for MHOMHO.
10	Disputes about attribution or commission calculations must be submitted through the official MHOMHO accounts channel.

07 — BUSINESS ACQUISITION AND CLIENT ATTRIBUTION

Your relationships, protected.

30 day prospect protection

starts once meaningful, documented acquisition activity has been recorded

1. Envoys receive a unique identification number or referral mechanism.
2. Prospects must be recorded through the approved MHOMHO process.
3. A 30-day prospect protection period applies once meaningful, documented acquisition activity has been recorded.
4. An Envoy must demonstrate genuine engagement with the prospect during that period.
5. Open territories apply: Envoys may approach businesses in any permitted market, subject to existing recorded client relationships and attribution rules.
6. Existing MHOMHO customers cannot automatically be claimed as newly acquired customers.
7. Disputed claims are reviewed using recorded communication, referral records and CRM activity.

Final decisions. MHOMHO will establish the final attribution decision where competing claims arise.

08 — MHOMHO ACHIEVEMENT AND CASH REWARDS

One-time bonuses on top of recurring commission.

ONBOARDED BUSINESSES	ACHIEVEMENT BONUS	CUMULATIVE
10 businesses	**$50**	$50 total
25 businesses	**$100**	$150 total
50 businesses	**$250**	$400 total
100 businesses	**$500**	$900 total
250 businesses	**$1,500**	$2,400 total
500 businesses	**$3,000**	$5,400 total

These are cumulative milestones. An Envoy who reaches 50 businesses receives $50 for reaching 10, $100 for reaching 25 and $250 for reaching 50. **Total achievement bonuses: $400.** These bonuses are additional to recurring commissions.

08 — WHAT QUALIFIES AS AN ONBOARDED BUSINESS?

Five conditions. All must be met.

A business counts towards achievement milestones only when:

- ☑ It is a genuine new business acquired by the Envoy.
- ☑ The acquisition is correctly attributed to that Envoy.
- ☑ The business has paid for its first campaign.
- ☑ The first campaign has been successfully delivered.
- ☑ The payment has not been refunded, reversed or disputed.

A signup, verbal agreement or unpaid booking does not count. One business counts as one acquisition, regardless of how many campaigns it subsequently runs.

Bonuses are subject to verification, applicable programme rules and MHOMHO confirming that the earned reward has been funded from available eligible contribution. **Once verified and approved, payment will be made within 30 days.**
