MHOMHO
MEDIA · CREATOR NETWORK

THE CREATOR PLAYBOOK · EDITION 01 · 2026

Make the crowd notice you.

Campaign Zero, better clips, verified views and getting paid on Mhomho. Built for Africa's distribution network.

$1.00
base CPM per 1,000 verified views

500
verified views to pass Campaign Zero

15
days to complete Campaign Zero

1,000
verified views per paid clip, unless the brief says otherwise

01 THE DEAL

The deal, in plain language.

You make content. Brands need distribution. Mhomho connects both — and pays creators for the verified views their posts deliver.

Mhomho is a creator-powered distribution network for brands across Africa. You post content you would make anyway, submit the link, and get paid for verified views. No follower minimum. No gatekeeping. A new account with one qualifying clip earns the same base rate as a page with 100,000 followers.

FOR CREATORS ↗

Get paid to post content.

Base rate is $1.00 CPM. Pick a brief, make it yours, submit the live link, and let an admin verify the views.

FOR BRANDS ↗

Put a product in many feeds.

One brief, many creators, one campaign window. Brands get distribution across audiences they do not own.

THE NUMBER TO REMEMBER

Base rate is $1.00 per 1,000 verified views. Campaign-specific CPMs and qualifying thresholds can differ, and are always shown in the brief before you post.

02 START HERE

Campaign Zero, your entry clip.

Campaign Zero is the final step before approval. It proves you can make a clip people watch.

01 **Create your creator account**

Name, email, handle and password. It takes about two minutes.

02 **Follow a Mhomho social page**

Follow any official Mhomho page so we can confirm you are in the network.

03 **Post at least 1 clip featuring Mhomho**

Up to 3 clips are allowed; extras are optional. Keep every post public and live.

04 **Reach 500 verified views**

Submit the link in your account. An admin verifies the view count. One clip at 500+ verified views unlocks your dashboard.

15-DAY WINDOW

You have 15 days from sign-up to complete Campaign Zero. If the window expires, start a new one and try again.

REAL VIEWS ONLY

No bought views. No engagement pods. No reposted or private clips. The views must be real and visible on the public post.

03 MAKE IT TRAVEL

The clip blueprint.

Mhomho does not need polished ads. It needs clips that feel native to the feed and make one idea impossible to scroll past.

01 ↗

Hook in the first 2 seconds

Show the product, the problem or the result immediately. Do not warm up. The first frame is the audition.

02 ↗

Film for the platform

Vertical 9:16. Caption on screen. Watchable with sound off. Keep the product visible and in use.

03 ↗

Use your voice

Local language, your face, your humour. The brief is the boundary, not a script to read word for word.

04 ↗

Make one idea obvious

One product, one problem, one reason to keep watching. Do not cram the whole brief into 15 seconds.

HOOK STARTERS

- POV: you finally found a ...
- I tried ... for 7 days. Here is what changed.
- Nobody talks about this part of ...
- 3 things I wish I knew before buying ...
- Watch until the end to see ...

FOLLOW THE BRIEF

Use the campaign hashtag, mention, sound or call to action exactly as the brief says. Creative freedom lives inside the brief, not outside it.

04 CLEAN SUBMISSION

Submit it right the first time.

An admin verifies every submission by hand. A clean submission gets through faster.

✓ DO THIS

- ✓ Post from the account you applied with.
- ✓ Keep the post public for at least 30 days.
- ✓ Paste the direct post link, not a screenshot of the link.
- ✓ Use the campaign hashtag, mention or sound in the brief.
- ✓ Submit the link only after the post is live.

× NOT THIS

- × Do not buy views or use engagement pods.
- × Do not delete or private the post before payout.
- × Do not submit a link to a private, expired or edited post.
- × Do not submit the same link twice.
- × Do not rely on a screenshot instead of the live link. Screenshots are optional.

LINKS ARE REQUIRED

You submit links only. Screenshots are optional. An admin verifies the views from the live post.

05 GETTING PAID

Verification and payout.

Every payout is manual and sent directly. There is no wallet balance or withdrawal button inside the app.

01 **You submit the link**

The clip appears in your account as submitted.

02 **An admin verifies it**

We check the live post, the campaign requirements and the view count.

03 **The clip is approved**

Only verified views count. Paid campaigns need 1,000+ verified views per clip unless the campaign says otherwise.

04 **Mhomho sends the payout**

Payouts are manual and sent directly. The minimum balance is $5. EcoCash is used in supported markets; the payout method is confirmed with you.

WHEN PAYOUTS GO OUT

Payouts go out after the campaign closes, once the clip has stayed live for the required 30 days. The app does not process withdrawals.

COUNTS	DOES NOT COUNT
Real views on the live public post	Bought or bot views
Views on the exact submitted link	Views on a different repost
Views while the post stays live for 30 days	Views after the post is deleted or made private

06 DO THE MATHS

What verified views can earn.

The base rate is $1.00 per 1,000 verified views. Use this as a planning estimate, not a promise.

VERIFIED VIEWS	BASE EARNINGS
1,000	$1.00
10,000	$10.00
50,000	$50.00
100,000	$100.00
500,000	$500.00

THE BRIEF ALWAYS WINS

Campaign CPM can be higher or different. Paid clips need 1,000+ verified views unless the campaign says otherwise. Only verified views count.

07 QUICK ANSWERS

The short answers.

Still unsure? Email support@mhomho.work and a human will reply.

Do I need followers?

No. There is no follower minimum. A new account with one qualifying clip earns the same base rate as a large page.

Can I submit more than one clip?

Campaign Zero allows up to 3 clips. For paid campaigns, follow the brief; each campaign can set its own limits.

When do I get paid?

After the campaign closes and the clip has stayed live for the required 30 days. Payouts are manual and sent directly. The minimum balance is $5.

Where do payouts go?

EcoCash in supported markets. The payout method is confirmed with you. Do not expect a withdrawal button inside the app.

What if my views are not verified?

Only verified views count. Bought views, private posts, deleted posts and wrong links do not qualify.

Which countries can join?

Brands and creators from other countries can join. Zambia, Tanzania and Mozambique are underway.

Where do I track my clips?

In the Mhomho Android creator app. Download it from mhomho.work, sign in, and follow each submission from posted to verified to paid.

TAKE IT WITH YOU

The guide is free.
The first clip is yours.

Start with Campaign Zero. Post one clip featuring Mhomho. Reach 500 verified views.
Then unlock paid campaigns and get paid to post content.
